# Industrial IoT Applications – Where are we today ?

May 4th, 2021 @ Telecom Paris Alumni  
Basile Verhulst

# About myself and GSC

**Basile Verhulst**

Founder

## GSC

What we offer

**IT Strategy  
& Design**

**Data  
Infrastructure  
& Analytics**

**Software  
Development**

**Advice for  
Investors**

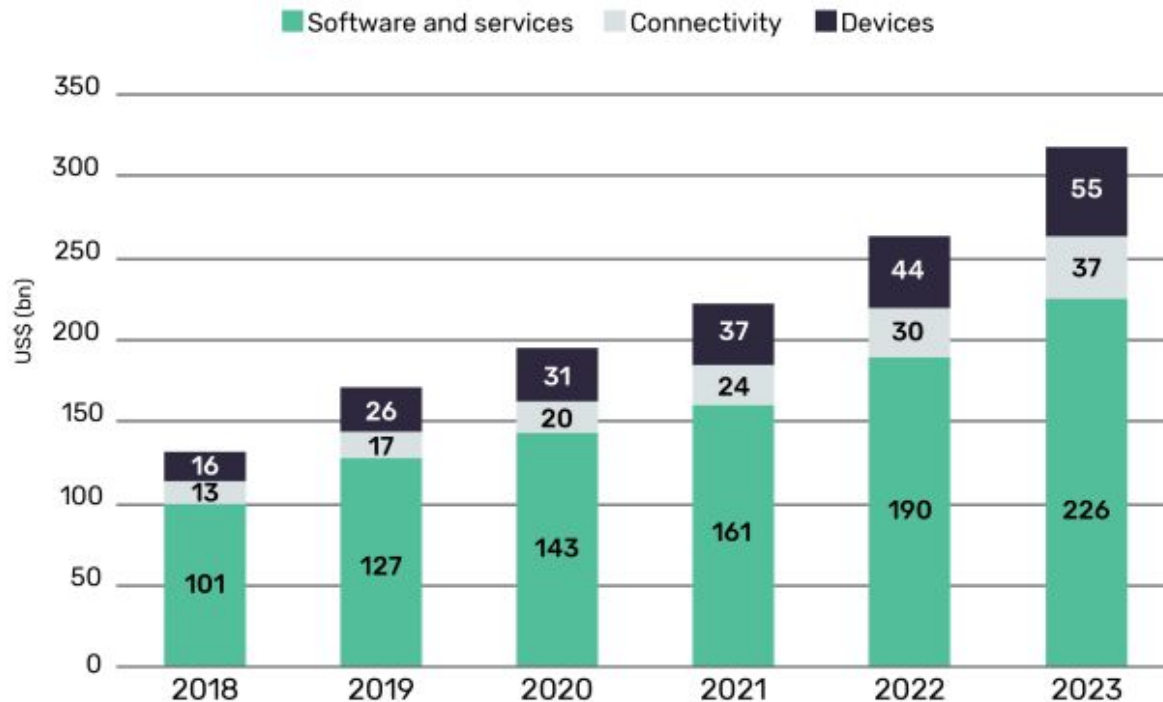

**Find out more: [www.gsci.com](http://www.gsci.com)**

# Industrial IoT vs. Consumer IoT

# Software and Services take the lion share of IoT value chain

Global IoT revenue by technology segment (\$bn), 2018-2023 

Source : GlobalData, Technology Intelligence Centre

# Overview of IoT Applications

Source : IoT Analytics, 2020

## Top 10 IoT Application areas 2020

Note: 1. Based on 1,414 publicly known IoT projects (not including consumer IoT projects eg smart home, wearables, etc.) 2. Trend based on relative comparison with % of projects in the 2018 IoT Analytics IoT project list e.g., a downward arrow means the relative share of all projects has declined, not the overall number of projects. 3. Other includes IoT projects from Enterprise & Finance sectors. Source: IoT Analytics Research - July 2020

# Largest IoT Deployments (Units)

Wireless Industrial  
Sensors

**550M Units  
(Worldwide)**  
forecast 2024

Telematic Tracker

**339.3M Units  
(Worldwide)**  
forecast 2024

Asset Trackers

**267M Units  
(Worldwide)**  
Forecast 2027

Smart Meters

**86.8M Units  
(US)**  
As of 2018

# 5G IoT: Time-Critical Applications

## Automotive

5G

FICOSA

## Private 5g Network

## Remote Surgery

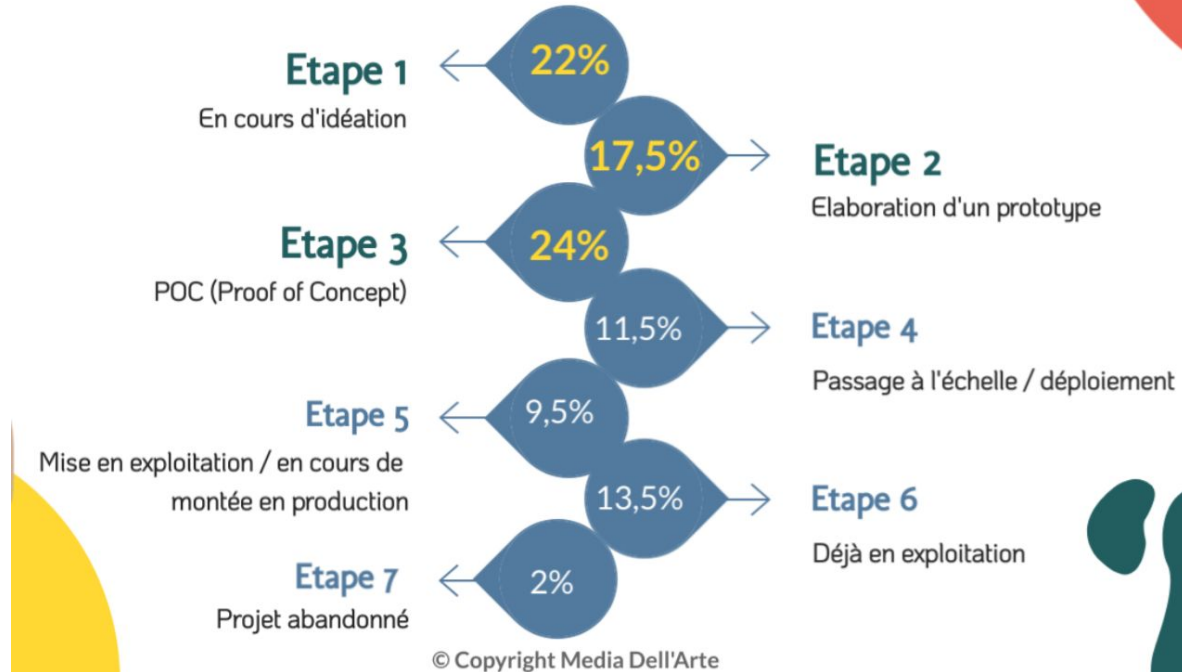

High bandwidth applications

# Étude : Étapes d'implémentations IIoT en France

A quelle étape de la réalisation du projet IoT en êtes-vous ?

# IoT is a long tail market

Challenges:

- **Market Fragmentation:**
  - Technologies (LoRa, NB-IoT, Cat-M, Sigfox, 2G..)
  - Standards (Frequency bands, security, ..)
  - Applications
- **Technical Complexity**
  - Operations Ramp Up
  - Lack of inhouse expertise
  - Hardware Specific issues : battery, connectivity (object interference)
- **Business Challenges**
  - Lack of clearly defined objectives
  - Little forethought on scalability
  - Time to ROI

⇒ Diversity of use cases give little room for to end-to-end solutions to scale.
